

Yan – Ny Tan received the B. Eng and M. Eng degrees in electrical engineering from the National University of Singapore (NUS) in 2000 and 2002, respectively, and is currently pursuing the Ph. D. degree in electrical and computer engineering at NUS. Her current research interests are in semiconductor device physics and reliability and advanced nonvolatile memory devices.

She was awarded the Microsoft Research Asia Fellowship in 2005 for her research on SONOS-type nonvolatile memory devices. The award includes a stipend of US \$6000 for attending professional conferences as well as salaried internship at Microsoft Research Asia in Beijing.
