Publications

Journal Papers in Year 2010

Conference Papers in Year 2010

7. SR Liyanage, JX Xu, CT Guan, KK Ang and TH Lee, "EEG signal separation for multi-class motor imagery using common spatial patterns based on joint approximate diagonalization", *Proceedings of 2010 IEEE World Congress on Computational Intelligence*, Spain, 18-23 Jul 2010.

10. JX Xu, X Zhao and D Srinivasan, "Fuzzy logic controller for freeway ramp metering with particle swarm optimization and Paramics platform", *Proceedings of 2010 World Congress on Computational Intelligence*, Spain, 18-23 Jul 2010.

53. F Hong, AM Memon, WE Wong and CK Pang, "Indirect-Driven Self-Sensing Actuation for Dual-Stage HDDs with Improved Robustness", *Proceedings of the 2010 ASME ISPS Conference*, United States, 4-15 Jun 2010.

58. J Yuan, KK Tan and TH Lee, "Development of an e-Guardian for the single elderly or the chronically-ill patients", *Proceedings of the 2010 International
