¹ ES1102 is to be read by students who do not meet the pre-requisite of ES1531 [Former module code EG1413].

* **ES2331** is a new compulsory Faculty Requirement for B.Eng(EE) students admitted from AY2012/13. The module should be read on a graded basis, as ULR Breadth or Unrestricted Elective. Students who qualify & were earlier invited to read the advanced ES1501A/ES1501B, will read the module in lieu of both ES1531 and ES2331. Students in the University Town Residential programme will read IEM1201_ and IEM2201_ in lieu of both ES1531 and ES2331.

Important:

1. The above University Level Requirements (GEMs, SS, ULR Breadths) and Unrestricted Elective Module Requirements (UEM) are for reference only. Students are free to re-schedule these (GEMs, SS, ULR Breadths, UEM) modules as they are done by bidding via CORS.
2. In the second-year (schedule III & IV), students will study most ECE core modules and are advised not to take more than one additional module in each sem.
3. The minimum **32 MCs** of **electives** satisfying the EE **Breadth / Depth** requirements can be taken at any semester upon satisfying the pre-requisites.
4. Students planning on going to IA should plan to take EE3 project in sem I of the third year of study (schedule V) or during the special term subject to availability.
5. Accelerating students can take EE4001 when they achieve level 4 standing.
