**CALL FOR PAPERS**

The NUS ECE Graduate Student Council [<http://www.ece.nus.edu.sg/gsc/>] is pleased to announce the 3rd ECE Graduate Student Symposium [[online](#)] to be held on 27–28th February 2013 at the Engineering Auditorium, National University of Singapore. It will be a two-day event including keynote speech from Prof. Low Teck Seng, CEO of NRF in Prime Minister's Office, technical sessions and poster sessions. This year's event promises to be more exciting as it is held at a time to invite the participation of the undergraduate students of the department.

The main objective of the Symposium is to spice up the quality of graduate seminar as well as providing a platform for undergraduates, graduates students & faculty to exchange latest research findings and ideas. The Symposium provides a unique networking opportunity for students and faculty from NUS with leading industry experts in the field. Thus, this Symposium will focus on research works and progress under the 7 research areas: Communications & Networks, Control, Intelligent Systems & Robotics, Integrated Circuits & Embedded Systems Circuits, Microelectronic Technologies & Devices, Microwave & RF, Power & Energy Systems and Signal Processing & New Media. These works reflect the students' efforts in the state-of-the-art R & D carried out in the various laboratories and research centers.

The organizing committee sincerely hope everyone will participate at the 3rd NUS ECE-GSS as a presenter, or attendee. We look forward to your active contributions and support at the 3rd NUS-ECE-GSS as you have shown in the preceding two Symposiums. Your contributions (oral and poster) will count towards in EE5999 Graduate Seminars or EE6999 Doctoral Seminars module. For more information and updates, please visit our website via [HERE](#)

All interested undergraduate students are encouraged to attend the Symposium to gain first-hand information on the researches going on in the department, which will be pivotal especially for those who are considering graduate studies after graduation.

**IMPORTANT DEADLINES**

Deadline for Submission: 31st December 2012  
Announcement of program schedule: 4 February 2013  
Event Dates: 27 – 28 February 2013

**REGISTRATION DETAILS**

Authors are invited to register online via [<http://tinyurl.com/nusecegss2013>] Authors are also required to submit the hard copies of the abstract and the registration form (download from [<http://www.ece.nus.edu.sg/gsc/GSS2013/authorinfo.html>]) endorsed by the supervisor(s) to the ECE Department.

**ORGANIZING COMMITTEE**

Program Chair	Kwadwo Konadu Ansah-Antwi
Program Advisor	A/P Chor Eng Fong
ECE GSC President	Ahmed Mahmood

**HOSTED BY**

Department of Electrical and  
Computer Engineering,  
Faculty of Engineering
