

2017 NRF Fellows

Congratulations to the following ECE faculty who have been awarded the 2017 Singapore National Research Foundation (NRF) Fellowship.

The NRF Fellowship Scheme is an initiative run by Singapore's National Research Foundation with the aim of developing a strong science research and manpower base in Singapore. Opened to all areas of science and technology and outstanding young researchers of all nationalities, the NRF Fellowship is a competitive programme that seeks to attract, recruit and root out outstanding young scientists.

Each NRF fellow receives a research grant to carry out independent research in projects which exhibit high likelihood of a research breakthrough over a 5-year period.

Dr. Thomas YEO

Assistant Professor

Department of Electrical and Computer Engineering

Research Title : "Unsupervised Machine Learning of Mental Disorder Factors From Magnetic Resonance Imaging"
