

ECE faculty among the world's most highly cited researchers

Congratulations to Prof. Ge Shuzhi Sam, Assoc. Prof. Zhang Rui and Assoc. Prof. Yan Shuicheng from ECE Department who are among the 11 NUS scientists and engineers who have been named among the most prominent researchers in the world by Clarivate Analytics, the former Intellectual Property & Science business of Thomson Reuters.

The Highly Cited Researchers 2016 report evaluated close to 130,000 highly cited papers indexed over 11 years from 2004 to 2014, in 21 fields of science and social sciences. It also tracked authors who published articles ranked among the top one per cent of the most cited in their respective fields in each paper's year of publication.

Highly cited researchers in NUS from ECE Department		Scientific Area
	Associate Professor Zhang Rui	Computer Science
	Professor Ge Shuzhi Sam	Engineering
	Associate Professor Yan Shuicheng	Engineering
